Summary

I am a computer enthusiast from Serbia, where I graduated from a four-year IT high school. Afterward, I moved to Germany and completed a Front-end development bootcamp based in Berlin. I'm passionate about problem-solving and skilled at converting Figma designs into clean, efficient code. I am now seeking opportunities to gain experience and grow as a web developer

Skills

Front-end React, JavaScript, CSS3, HTML5, SASS, Tailwind, Bootstrap, Git
Languages Serbian, English, Learning German

Education

Technical High School "Ub"

"ELECTRONICS TECHNICIAN FOR INFORMATION AND TECHNOLOGY"

Serbia, Ub

Sep. 2018 - Jun. 2022

- Passed the final exam with an excellent grade, thereby completing four years of secondary education.

Beam Institute of Technology, Berlin

"UI/UX ENGINEERING CERTIFICATE"

Germany

Jan, 2024 - Jul. 2024

- Gained hands-on experience by working on real-world projects, utilizing languages and frameworks like React, JavaScript, CSS, and more.

Personal Projects

CinemaScope

THE LIVE DEMO OF THE PROJECT YOU CAN FIND ON MY WEBSITE LINKED ABOVE.

- Developed a Disney and Netflix clone movie app using React, replicating popular streaming platforms interfaces and user experiences.
- Integrated the Movie Database (TMDb) API to dynamically fetch and display movie data, ensuring real-time content updates.
- Implemented a responsive and visually appealing user interface with Tailwind CSS, providing a seamless experience across devices.
- Used local storage for favorite movies to ensure a smoother user experience.
